The "Lao Aussie" fresh market opened in 2009. It is Laos' first 24-hour commercial hub (wholesale-retail) with an area of more than 13 hectares, more than 1000 stores, and an average of 3000 people coming and exiting every day.

We envision ourselves as a center to drive small-medium businesses from farmers to customers, rather than a place to rental space.

Coming to Japan at this time is look for a company partner who may grow wholemarket trade, such as Japanese consumer goods. And additionally seeking a business partner to produce organic fertilizer from garbage
